Serious Unrest and Widespread Disturbances In India and Among Native Troops Branded As Distorted Exaggerations

ONLY PLOTS OF MINOR NATURE HAVE HATCHED

Trouble of Religious Nature Is Unknown and Government Declares Wild Reports Have Been Traced To German Origin

(Associated Press by Federal Wireless.) ONDON, November 20.- The var us reports which have been circu lated during the past several weeks of serious unrest and widespread disturbances in India and among the Indian troops in active service abroad are declared, in an official statement issued from the Indian Office yesterday, to be either exaggerated distortions or wholly

There have been no disturbances a religious nature, whatever, says the report, and no uprising among the Indians, while the various plots which have been reported on are of a minor eature, such as the government of India bas had to deal with the past ten years. Similar To Anarchy

They are similar in nature to the anarchist plots which all governments are called open to take action, and the war has decreased rather than increased the activities of the agitators throughout India.

The reports of governmental trouble India are evidently, says the Indian Office officials, of fictitious, German origio, sent out in an effort to influ ruce opinion in the neutral countries, being on a par with the early reports of rebellions in Ireland and movements for Canadian independence.

Reports Termed Fictitious Yesterday, according to despatches from Berlin, the Frankfurter Zeitung announced that an uprising among the advance on Bagdad. The Indian regiments among the troops refused

LEGISLATIVE ACT TIES UP BALANCE IN SCHOOL FUND

Someone Slips Joker Into Law That Ties Hands of Honolulu Supervisors

BALANCE NOW ON HAND CANNOT BE DIVERTED

Unless Court Gives Relief Extra Rooms For 600 Children Cannot Be Buitt

Some joker in the legislature has classed a little stumbling block for su-pervisors in the laws passed for the bet-ter handling of the school fund by the counties. This was discovered when the city attorney rendered his opinion to the board that the time was not yet ripe for the supervisors to reappropriate any halances remaining in the school fund to arect the emergencies arising from the need for more school rooms at Manoa. The acts reappropriating the \$10,000 item for Macmae school and amending the tax law apparently have nullified that part of one of the early acts passed and the city attorney has so ruled.

H. W. Kinney, superintendent of pub is instruction, is authority for the statement that the law as understood by himself and the supervisors of the other counties gives them the power to transfer from one item of the budget to another, sums as necessary. The section of the law under which this has become a practise reads in part as

All balances unexpended or unew tracted for during any appropriation period, shall be and remain in the treasperiod, shall be and remain in the treaturies of the counties, subject to reap propriation by the board of supervisors, with the approval of the superfutendent of public instruction for any of the purposes specified in the 'Special Find' as fixed by the legislature for the same or the purpose specified in the 'Special Find' as fixed by the legislature for the same or the purpose in the purpose the same or the succeeding biennial pe-

Building Extension Held Up supervisors rending this law thought that they had the right to switch appropriations to "any of the purposes of the Special Fund' but it less than fifteen—a more normal rate tyrns out they have not. So, unless than that allowed in the prior appeal. turns out they have not. So, unless some way out of the difficulty is form extra rooms for about six hundred China to the Entente Alliance in order children of school age will not be built until action is taken by the next legis-

What will be the result of the switching done by the supervisors of the other enties remains to be seen. The stand taken by the city attorney of Honolulu does not govern in the other counties and there is a possibility that some of If China agrees to join the alliance the interested persons will make a test she will not be expected to participate case of the matter if it is possible to

HAWAII ASSESSOR TWICE SUSTAINED ARMY IS BY SUPREME COURT STEADILY

Hawi Mill and Plantation Company and Union Mill Company Lose Tax Appeals

SUGAR TARIFF AND WAR IN EUROPE TOUCHED ON

Decisions Net Government Revenue On \$450,000 Involved In Disputed Assessments

Hawi Mill and Plantation Company oses out in its appeal from the decision of the West Hawaii tax appeal court to the supreme court of the Territory, ac-cording to a decision handed down by the supreme court yesterday in the case. The opinion was written by Chief Justice Robertson and is concurred in by Associate Justice Watson and Quar

The company returned the aggregate value of its combined property, which is situated in the district of North Ko hala, Island of Hawaii, at \$550,000. The property was assessed by Tax Assessor Olhe T. Shipman at \$1,000,000, but the ompany took the matter to the tax appeal court of the third judicial circuit, which court fixed the value of the property at \$900,000. From this decision the company appealed to the su-preme court, with the result shown here. Not First Appeal

"The matter of the assessment of this gars becomes a near possibility. company's plantation was before this court upon its 1912 assessment,' says driven back until they soon will be the supreme court decision, "and a able to join their force to that of the valuation of \$1,000,000 was then given army in Central Serbia, which is still it.....The company holds its lands valiantly keeping its face towards the partly in fee simple and partly under outsumbering Bulgarians, yielding partly in fee simple and partly under lease. About one half of its cane area

is artificially irrigated."
After going into the merits of the contentions held by the company the upreme court says:
'The evidence shows that the profits

of this plantation for the seven years ast past (1908 1914) have averaged \$134,297, which, upon an assessment of \$900,000, on the basis of the capitaliza tion of profits, is at the rate of a fittle

"In ascertaining the sum available for the payment of dividends amounts laid out in necessary improvements as well as the bare running expenses must be deducted, but in showing the actual profits a further sum for estimated depreciation of plant is not deductible un ier section 1241 of the Revised Laws.

War Baised Prices The further argument of counsel for the appellant refers to the fact that since the last appeal was decided legis lation has reduced the duty on raw su-
